## AN AUCTION SALE IS NOT AN APPROVAL SALE

### TERMS OF SALE

1. All bids are per lot as numbered in the catalogue and all items are sold as per lot. No lots are sold out of numerical order. The right is reserved to withdraw any lot prior to sale, or to group two or more lots. No lots will be broken up.
2. The highest bidder will prevail. Lots are sold at a slight advance over the next highest bid. The auctioneer will regulate the bidding, and reserves the right to refuse any bid not believed to be in good faith. Should any dispute arise between bidders, the decision of the auctioneer, in the exercise of his judgment as to the successful bidder, will be final, and the auctioneer may re-offer or resell the lot under dispute. Title will be retained by Harmer, Rooke Numismatists, Ltd., until lots are paid for in full.
3. Auction sales are strictly for cash, and must be paid for promptly in U. S. funds.  $1\frac{1}{2}\%$  per month service charge will be added to all bids delinquent after 1 month from date of sale.
4. Floor bidders must identify themselves to the auctioneer immediately following the purchase of each lot. Payment of the whole purchase price, or such part as the auctioneer may require, will be made by the buyer in such manner as the auctioneer may determine. Personal checks may be accepted, subject to collection.
5. Mail bidders unknown to us must furnish satisfactory references, or remit a deposit of 25% of the total of bids. There is no charge for executing mail bids. In the case of equal bids, the earlier bidder will prevail. Successful mail bidders will be notified of the lots allocated to them, and must forward payment before the lots are sent. Those known to us, or who furnish satisfactory references, may, at our option, have their purchases forwarded for immediate payment. Delivery of lots will be to addresses indicated on bid sheets.
6. All lots are guaranteed to be genuine and as described. No lots may be returned by mail bidders without our written permission. All claims must be made in writing within 5 days after receipt of goods. We reserve the right to decide on all claims.
7. Forwarding charges, insurance, &/or registry fees will be borne by the purchaser. The N. Y. State Sales Tax as applicable, is payable by all buyers liable to tax.
8. Unlimited or "buy" bids cannot be accepted.
9. The placing of a bid will constitute acceptance of the foregoing terms of sale.
10. We cannot be responsible for any errors on the part of bidders. Please be careful.
11. No consignors, nor their agents, will be permitted to bid on their own material.

Due to the chaotic nature of government in China thruout most of the 19th Century, and especially the lack of a central issuing authority, there exist multitudes of large ornate silver "Crowns". Although airily dismissed by Kann as "fantasies" there is little doubt that many actually circulated, and all are avidly sought after by collectors.

### “LOVE TOKENS”

Scratching letters or names on coins is a practice almost as old as coinage itself. Availability and durability made pieces of money convenient sources of identification discs and mementos, and ready media for expressing personal sentiments.

The custom flourished in the western world, and in the United States it seems to have peaked in the 1880's. All denominations from the cent to the double eagle saw service, although the dime appears to have been most popular. Usually one side of the coin was smoothed, and on the blank service were engraved the names or initials of relatives, lovers and friends. So elaborate and involved are some of these inscriptions that they are difficult to decipher. These are called “combination” monograms because they may be read in a number of ways. (IE), a monograph may read “AEL” “LEA” “EAL” etc. Significant dates or even scenes might be added, and occasionally would lend a touch of color Workmanship varied considerably, from the polished creation of a professional to the primitive charm of an amateur, but mostly typical of Victorian taste.

The finished products were destined for some favored lady, who collected them until she has enough to make a brooch, a bracelet, a pair of earrings or a belt. Many of the surviving tokens bear evidence of their past as jewelry, holes, loops or solder marks; a few (and they are quite unusual) are intact jewelry items, heirlooms that may still be worn. They are all relics of an era when “a token of admiration, esteem and affection” was not a Picasso, a piece of Steuban glass or a forgiven debt.
